## Career Leadership Academy

The Career Leadership Academy is an exciting opportunity for YOU to develop your leadership and professional skills – those same skills that employers have told us they're looking for in new employees.

The program is comprised of 4 academic credit-bearing courses called "phases" that focus on developing the leadership skills you already have and discovering the ones you'll need to be successful after graduation. Each phase of the program is filled with seminars, activities, and events designed to give you an edge as a leader in whatever career field you choose.
